

# *Future Teachers/ Educators Rising*

**Educators Rising is an organization that helps make sure teachers have the experience and skills they need to be ready for the classroom.** Starting with high school students, we provide passionate young people with hands-on teaching experience, sustain their interest in the profession, and help them cultivate the skills they need to be successful educators. The result is a pipeline of accomplished teachers who are positioned to make a lasting difference — not only in the lives of their students, but also in the field of teaching more broadly.

Educators Rising is an evolution of the Future Educators Association (formerly Future Teachers of America).

**Our Educators Rising** chapter at SCHS introduces students to the teaching profession and allows them to gain a realistic understanding of the nature of the education profession and the roles of educators in various areas of expertise.

Those career areas include, but are not limited to:

- Teaching
- Administration
- Psychology
- Nursing
- Social Work
- Counseling
- Community Education
- Mentoring
- Student Programming and much more!
