# St. Charles High School School Supply List

[www.scpirates.org](http://www.scpirates.org)

- Students at SCHS do not have a set school supply list, due to the number of courses offered at the high school.
- Students need to bring tissues and/or a container of disinfecting wipes to donate to their AIP class, and/or the library.
- Students will need basic supplies such as pens, pencils, and paper.
- Students in Algebra 1, Geometry, and some science classes will need a Texas Instruments Scientific calculator. **We recommend TI-30X IIS.**
- Students in Algebra 2 and beyond will need a Texas Instruments Graphing calculator. We recommend **TI-83** or **TI-84** calculator.
- Students taking the ACT can check this link to see what calculators are prohibited: <http://www.act.org/content/act/en/products-and-services/the-act/test-day.html> Scroll down click on 'Permitted Calculator' in the Calculator paragraph.
- Teachers will provide any specific needs for the individual courses during the first few days of school.

**Approved Calculators: TI-30X IIS, TI-83 or TI-84**
